Press Release

9 February, 2010
(Released at 2:40pm)

**Toyota Motor Corporation Confirmed
Recall on 3rd Generation Prius in Hong Kong**

In response to the complaints to the braking system of the 3rd generation Prius from US and Japan customers, Crown Motors Ltd. (CML) and Toyota Motor Corporation (TMC) confirmed recall on the 3rd generation Prius sold in Hong Kong regardless of the absence of related complaints or accident reports from local customers. The purpose of upgrading the Anti-lock Braking System (ABS) software is to assure Hong Kong customers' confidence. It takes around an hour for the free-of-charge upgrade service. In Hong Kong, approximately 270 units of the 3rd generation Prius are involved in this recall. CML is now in contact with owners of the 3rd generation Prius via telephone, SMS & registered mail for further arrangement.

For enquiries, please contact our Service Centers or Service Hotline at 2880 4101. The 1st and the 2nd generation Prius are not involved in this recall.
