Press Release

26<sup>th</sup> February, 2010

**Recall of Daihatsu Atrai 7**

Crown Motors Limited (CML) has received notice from the manufacturer of Daihatsu in Japan, that the **Daihatsu Atrai 7** produced in years 1999/2000 requires an update in the steering wheel airbag system. There is a risk that the wires in the airbag system may short circuit, causing the airbag to automatically engage, hence there is a need for recall action. Considering that this model was produced more than 10 years ago, it is unlikely that there are more than 50 cars still on the road that will be involved by the recall.

CML has been the brand agent of Daihatsu in Hong Kong since 2003, and will actively contact owners to arrange for their car to be taken to a service center and have replacement wires fitted. The company has not received any customer complaints or accident reports regarding this issue, as always at CML, customer safety remains a key concern.

If you have any queries, please call customer service hotline on 28801395.
