Press Release

16th December, 2010

Toyota Stays Ahead on Sales Chart
Rising Trend is Expected to Maintain

Crown Motors Limited (CML) is pleased to announce that there were 514 units of passenger car sold in November, making Toyota ahead on the sales chart. Comparing to the same period last year, there was a growth in sales for 11 months in a row while the trend seems to maintain. Following the launch in late 2010 of the all-new Toyota Ractis Verso – the first to greet the “New Wave Japan Hatchback”, it is expected the sales performance will stay strong.

The result regarding the overall sales of CML is exceptional. A total of 9,407 units were sold up to November, which has an enormous increase of 3,318 units.

CML is grateful for the continued trust and support from customers. It promises that utmost effort would be paid to work with the manufacturer for bringing more leading-edge models to the local market and to provide the best services with no exception.
